TAXABLE SALES REPORT
INTRODUCTION

This report provides taxable sales information for counties and cities in the Commonwealth of Virginia. The taxable sales figures presented here are based on Virginia sales tax revenues deposited, rather than the actual taxable sales figures as reported on a dealer's return. The calendar period covered by the report reflects all deposits received during the period regardless of the taxpayer's filing period. The amount of annual taxable sales by locality in odd-numbered years is among the constituent index elements in the Composite Index of Ability to Pay used by the Department of Education to allocate school-aid money.

The figures presented should be viewed as approximations of the actual taxable sales for the period. The accuracy of taxable sales as a measure of retail sales depends upon a variety of factors, such as correct filing of returns, mailing and processing conditions, and the number of filing days in the month.

The taxable sales report is based on all sales tax receipts received by the Department of Taxation. Taxable sales for a locality reflect payments for sales made during the current period, tax payments based on audit settlements for sales occurring in previous periods, and any transfers of revenue from one locality to another made in order to correct errors in filing of tax returns. Adjustments to sales tax revenues such as deposit adjustments, refunds, and bad check adjustments are not reflected in the taxable sales report. Trends in taxable sales partly represent changes in sales tax collections and so may differ from changes in actual retail sales.

The Department of Taxation releases taxable sales information for each quarter, as well as a separate computation of taxable sales figures for the calendar year. Combining the quarterly reports will not yield a complete annual sales total. Late filers or locality transfers processed after the close of the quarterly period are not reflected in the relevant quarter, and, in certain circumstances, would not be included in the following quarter's totals. Also, total figures appearing on the Commonwealth page of these reports will not equal, and may be less than, the sum of the counties and cities pages. This difference is due to the fact that adjustments made to unassigned localities will be counted in the state totals, but not in the totals for the counties and cities. All payments and transfers made during the calendar year ending December 31 are included in the annual report totals.

The number of registered dealers for each business classification code accounts for multiple locality dealers. This figure is determined by counting each separate place of business once. For localities with less than four dealers in a business classification, the taxable sales data are reported in the **Other Miscellaneous and Unidentifiable** category. This procedure is followed pursuant to the Code of Virginia, Section 58.1-3, in order to avoid the disclosure of confidential tax information relating to the dealer(s). Statewide statistics, however, reflect the taxable sales of all such dealers in their proper classification.

The taxable sales report includes only those items that are subject to the sales and vending tax. Numerous sales are excluded or exempted. Among the sales specifically excluded are sales of certain motor vehicles, trailers and semi-trailers, mobile homes and travel trailers, and sales of certain motor vehicle fuels. The user of this information should review the exclusions and exemptions set out in Sections 58.1-602 and 58.1-609.1 through 58.1-609.10 of the Code of Virginia for a detailed list.

Effective October 1, 1981, the state and local tax bases may be different as a result of the Commonwealth's exemption of fuel sales for domestic consumption (business classification codes 60, 61, 62, and 69). Localities have the option of exempting or continuing to tax fuels for domestic consumption. This report is generated from local sales tax deposit information. Therefore, in localities which exempt these fuel sales, the taxable sales figure will be calculated on a different tax base than in those localities in which these fuels are not exempt.

Effective July 1, 1992, the sales of alcoholic beverages in Alcoholic Beverage Control (ABC) stores are no longer exempt from the sales tax. The legislation eliminating this exemption directed that all such revenues be deposited to the Commonwealth's General Fund. Sales of alcoholic beverages are computed from information provided by the Department of Alcoholic Beverage Control.

The Department of Taxation provides the Weldon Cooper Center for Public Service at the University of Virginia with data from the Taxable Sales Report. These data are available now on our website at www.tax.state.va.us and is linked to the Weldon Cooper Center bulletin board at the University of Virginia http://www.virginia.edu/coopercenter/vastat/taxablesales/tax_sales.html.

Please contact the Department of Taxation, at 804/371-4371 or 804/786-3455 for questions about the data.
